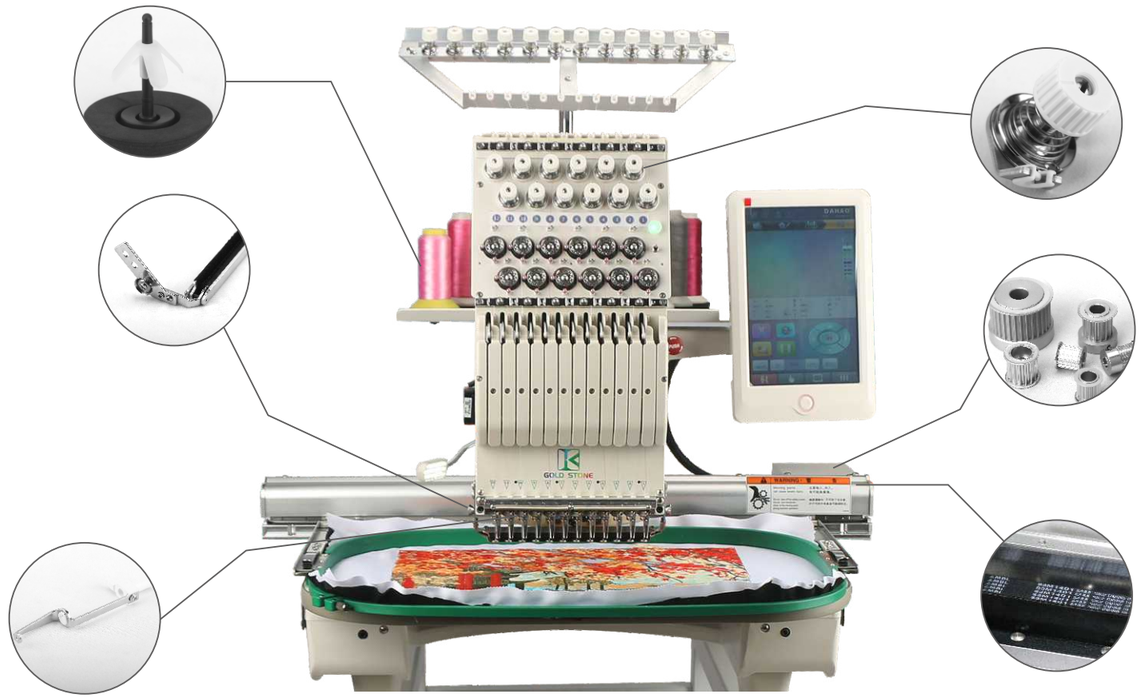
GT-1501	15	1	130 kgs/150 kgs 287 lbs/331 lbs	350*500 mm 14*20 in	750*750*750 mm 30*30*30 in	870*830*890 cm 34*33*35 in	10.4 in

Main features

Multi-embroidery in one machine

- With flat embroidery, hat embroidery, ready-made clothing embroidery and other uses
- 10.4" HD&TFT LCD
- Maximum embroidery area 350*550 mm (14*20 in)
- High-quality frame and casters, stable and flexible
- Intelligent Wire Break Detection
- Maximum speed 1200SPM
- The pattern storage space is 100 million needles, and the automatic color change sequence can reach 1000 times.
- The Best Choice for Home and Industry Use



Intelligent Technology

- USB Disk Input and Output Operation
- Readable in a variety of formats (e.g.DST, DSB, etc.)
- Networking via wires or wireless networks
- 270 Degree Wide Angle Hat Embroidery System
- Automatic color change and pattern Preview
- Spindle Servo Motor
- AC 110V-220V, 50/60Hz Input Voltage Adaptation
- The X/Y axis adopts 36V micro-stepping motor with less noise and vibration.
- Operating head bracket can be rotated and adjusted at multiple angles.

High Speed and High Efficiency

- Multitask Parallel Operation
- Automatic Line Cutting and Color Change
- Memory Function of Embroidery Starting Point
- Repeated and cyclic embroidery function
- Visual Selection of Multiple Embroidery Frames
- Support batch input, output, deletion and other operations
- Built-in Chinese, English, French, German, Thai, Dutch, Vietnamese, Spanish, Portuguese, Turkish, Arabic, Russian and other languages

RESEARCH AND DEVELOPMENT OF NEW:

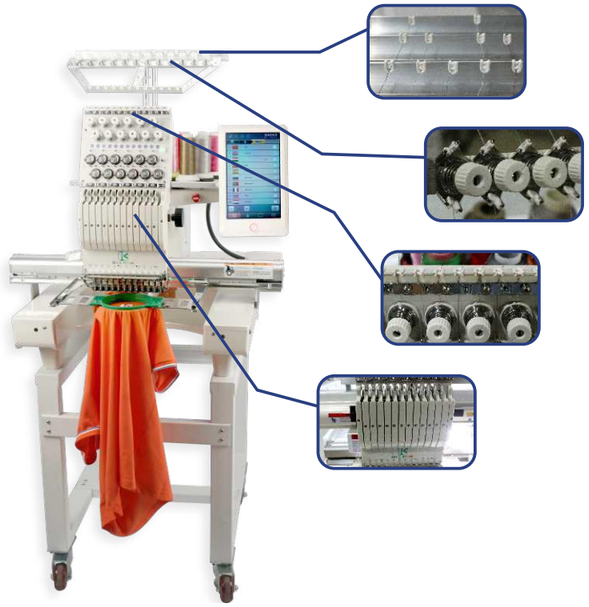
New threading way 50%

faster than traditional threading way

Applied range

Gold Stone brands

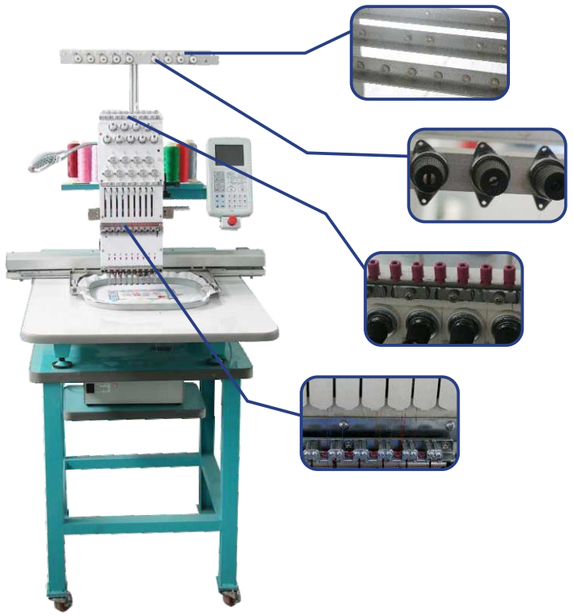
Victory



It takes **49** seconds to threading a one needle from start to finish

PK

Other brands



It takes **88** seconds to threading a one needle from start to finish

10.4" HD&TFT LCD

- Using the latest embroidery machine control system
- Humanized touch screen interface, ergonomic, easy to operate
- Super-large pattern storage space
- One-click setting Framework Automation
- Multilingual choice
- Brake adjustment function
- Preset embroidery frame parameters to prevent frame collision
- Operating head bracket can be rotated and adjusted at multiple angles.
- Maintenance and debugging functions of various machines
- Custom letter patterns can be formed
- Flat panel and PC can directly control embroidery machine

Configuration Cap embroidery:

1 × Hoop Cap Clamp

2 × Cap Rings per Head

1 × Cap Driver per Head
